BUY NOW

Why wait until property doubles in value again? Don't be "Johnny Wise" and say Logan property has reached the top notch, I will buy after it has taken a tumble. You have been saying this for the past two years. You said it when "Glenova" was on the market. You were "Wise" but the other fellow took down the profits.

It will require hundreds of new buildings to house the many people that will come to Logan within the next 18 months.

Logan, the Queen City of the Valley, has revived; the coming of the New Railroad Shops has acted as the Elixir of Life, Real Estate has advanced one-half to double its former values, rents are climbing upward; the Railroad Shops means the additional housing of 500 workmen and their families; the fact that Logan is to be the division point of the K. & M. and H. V. Railroads between Columbus, Ohio, and Charleston, W. Va., means the housing of 200 to 300 more Railroad men and their families.

New factories, new industries, the increased working capacities of the old factories, all call for more men who call for more houses. The population 18 months ago was estimated at 5000 now 6000. To man the shops, the new railroad crews, the increased working capacities of factories and other new industries will continue to rapidly increase the population to 10000 people.

THE CRY NOW IS FOR HOUSES—MODERN HOUSES.—Have you one? Why not buy a lot and build—Now is your opportunity—Re-read our Offer, ponder well, act and be the happy husband of a happy family—Own your own home—You will be a more interested citizen—Have more interest in your home and save more money, since you don't pay rent.

Pine Creek

While engaged in sinking a well for the use of Williamson & Co., who are running a saw mill on the Burroff farm, Lewis Sower and Ed Brown struck a three foot vein of coal about 15 feet below the surface, which is said to be of very fine quality, similar to the antricit, and as the mine is only two and one-half miles from Haynes station, the farm on which it is located is considered to be more valuable than all of the gas and oil in the adjoining vicinity.

With the exception of being a little chilled the calf did not seem any the worse for its long ride upon the raging waters.

Children's Day at Bethany.

A very nice and sacred program was rendered by the Sabbath School of Bethany U. B. Church, Sunday. The program consisted of songs, pieces and dialogues, which were rendered with such efficiency that it gave pleasure to all. It seemed that the children's motto was "Do your best." Although it may have taken much work, but through the careful training of the superintendent, Eber Mowery, and the industriousness of the pupils they made great success of it. The children of the locality nearly all took part in the service. We would that the day was the starting point of broader thoughts and of Divine love.

Following is the program:
